Supplies You Need:

- Glue
- Scissors
- Printer & Black Ink
- Construction Paper:
 - 1 white
 - 3 brown
 - 1 green
 - 1 red or pink *optional

Instructions:

The files in the activity folder are saved in a transparent .PNG format. They are image files with a transparent background, designed to print black ink only (the outlines). Because of this, you need to use colored construction paper. This may require you to cut one side of the construction paper to fit through your printer.

Step 1:

Open and print each image file on the sheet of construction paper with the corresponding colors shown below.

1. 01-brown.png – Print on a sheet of **brown paper**.
2. 02-brown.png – Print on a sheet of **brown paper**.
3. 03-brown.png – Print on a sheet of **brown paper**.
4. 04-white.png – Print on a sheet of **white paper**.
5. 05-green.png – Print on a sheet of **green paper**.
6. 06-red.png – Print on a sheet of **red or pink paper**.

Step 2:

Using scissors, cut out the objects on each piece of paper.

Step 3:

Glue the pieces together. Green on the bottom, then brown, then white and red/pink. Use the images @ mramphibian.com/frog-life-cycle-kids as a reference.

Step 4:

All done! Don't forget to share your pictures with family and friends!
